The image shows a screenshot of an Ubuntu desktop environment. A window titled "Displays" is open, showing settings for a single monitor labeled "Laptop". The window includes options for "Resolution" (set to 1024 x 768 (4:3)), "Rotation" (set to "Normal"), "Launcher placement" (set to "All displays"), and "Sticky edges" (set to "OFF"). There is also a "Mirror displays" checkbox with a note: "Note: may limit resolution options". At the bottom are "Detect Displays" and "Apply" buttons. The desktop background is orange, and the Unity dock on the left contains icons for various applications like Dash, Home, and Dash to Dock.

language support 2.png

The screenshot shows the Ubuntu System Settings window open. The 'Language Support' tab is selected. It lists the languages for menus and windows, with English (United States) at the top. Below it are English, English (Australia), English (Canada), and English (United Kingdom). A note says to drag languages to change their order. There's a 'Apply System-Wide' button and an 'Install / Remove Languages...' button. The 'Keyboard input method system' dropdown is set to 'none'. At the bottom, there's a 'Help' button and a 'Close' button. Below the main window, there are tabs for Network, Power, Printing, and Sound. Under the 'System' heading, there are links for Backup, Details, Management Service, Time & Date, Universal Access, and User Accounts. To the right of the main window, there's a sidebar with icons for Language Support, Privacy, Ubuntu One, Displays, Keyboard, Mouse and Touchpad, Wacom Graphics Tablet, and a Help icon.
